

60 60 cambrick cadbury foil

Cadbury cambrick foil

Cadbury cambrick foil

The image shows two sheets of foil material, likely for packaging, laid out side-by-side. The left sheet has a purple pattern, and the right sheet has a red pattern. Both patterns consist of a dense, repeating grid of small, rounded rectangular shapes, creating a textured, woven appearance. A vertical crease runs down the center, separating the two sheets. A white, rounded rectangular label is positioned in the center, overlapping both sheets.
